WORK EXPERIENCE

Software Engineer Intern   Jul 2020 – Aug 2020

CleverCounsel LLC   *Los Angeles, CA*

- Built an automatic document generator with corresponding REST API endpoints on a Flask back-end which queries the database, populates the appropriate fields in the document, and stores the result in an AWS S3 bucket
- Created a microservice API using AWS Lambda to host endpoints that handles web crawling and returns client data to API when requests are made to create/update records in the database
- Mocked web crawling to cut Flask integration test times by 40% and fixed Selenium testing bugs
- Constructed REST API endpoints for updating client records in the database

Financial Analyst   Aug 2018 – Feb 2020

The Clorox Company   *Oakland, CA*

- Generated key business drivers by partnering cross-functionally with Sales/Marketing and communicated findings to finance leadership through monthly Tableau presentations
- Generated > $300k in cost savings by partnering with Marketing and creating an unallocated spend sweeper tool to automatically identify unutilized spend
- Saved 150 work hours per year across 5 business units by overhauling our data pipelines to reduce manual data entry during my division's transition to Tableau for internal financial reporting
- Built training programs for 6 new hires on spend tracking tools, booking journal entries for monthly close/year-end accrual processes and working with data in Tableau

PROJECTS

Job Board Site   Summer 2020

- Developed job postings application using React on the front-end and Express on the back-end
- Added features to allow users to apply and find jobs through specific keywords

Blog Site   Summer 2020

- Developed blog application using React/Redux on the front-end and Express for the back-end
- Wrote functionality to like posts and dynamically update ordering based on likes using Redux

EDUCATION

Rithm School   Expected Aug 2020

Full Stack Software Development Bootcamp   *San Francisco, CA*

University of California, Berkeley   Graduated May 2017

B.A. Economics | 3.84 GPA   *Berkeley, CA*

TECHNICAL SKILLS

Languages - Javascript, Python, SQL, HTML, CSS

Libraries / Frameworks / Tools - React, Redux, Jest, Node, Express, Flask, Git, SQLAlchemy
